

# Pop Up Blocks Project

This project can form a stand-alone card or be fitted inside an A5 card as an insert.

## What you will need to recreate this project:

A4 card (29.7 x 21cm)

Backing paper

Embellishments

## Assembling the project:

With the A4 card in horizontal position measure & mark the following points both top & bottom: 9.9: 15: 19.8: 24.6cm.

Faintly draw in the 15 & 24.6cm lines & then turn the card into vertical position & use a pencil mark the following points along those two lines: 3: 8: 9.5: 14.5: 16: 21cm, draw lines between these points. I have given you a diagram below to help guide you.

Fold all score all lines & crease well with the bone folder, reverse fold on the 15; 19.8 & 24.6 lines & assemble the folds to create a DL card measuring 9.9 x 21cm, as seen in the main image.

Using your craft knife, cut through the pencil lines forming the block sections, & then pop out the blocks & pop in the narrow sections between.

Cut up the backing paper as follows: two sections measuring 9.2 x 20.5cm; two sections measuring 4.4 x 20.2cm; & 6 pieces each measuring 4.5cm square.

Fix first of the largest pieces centrally to the outside front of the card, & the second of those pieces to the largest inner section.

The two narrower pieces adhere centrally to the panels on either side of the block section, & finally the six smaller pieces cover both faces of the three pop up blocks.

You can fit the insert this into an A5 card & have it as a pop up if you wish, to do this do not cover the front with backing paper, reserve this for the front of your A5 card.
