

Simple Herbal Tea Bag Gift Wallet

What you will need to recreate this project:

- 30.5cm square (12") Double sided quality paper
- 4 individually packaged tea bags
- 2 layering circle die cuts for decoration
- Teacup die cut as embellishment
- Velcro dot fastener

This is a super easy gift wallet that holds four individually wrapped teabags, but it is simply the paper that you choose that makes this a really special little gift. Here I went with beautiful florals, but you could just as easily make it using a bold masculine design, or vintage shabby etc.

Step by step:

From your full sheet of paper cut two pieces, one measuring the full length of the sheet 30.5cm (12") x 16cm (approx 16 $\frac{1}{4}$ "), the second piece measuring 5.5 x 17.8cm (7 x 2" approx).

If you are using a directional pattern make sure the paper is upside down so that the pattern on the front flap will end up the right way up & then measure & mark the following up the longest edge of your larger piece; 4.3; 13; & 21.8cm (1 $\frac{3}{4}$; 5 $\frac{1}{4}$; 8 $\frac{3}{4}$ " approx). Along the lower edge of the piece measure & mark the centre line at 8cm (3 $\frac{1}{4}$ "), score in all lines apart from this final one as it is a guide only. Fold & burnish all of the lines to form the wallet wrap.

On the smaller piece of paper score a 1cm border (1/4") down both short sides & also across one long side, & then mark the central point along one of the long edges at 9cm (approx 3 $\frac{1}{2}$ ") as a guide only. Score the three border lines before folding & burnishing.

Open up the wrap & apply either a narrow red line tape or Tacky glue down the edges of the lowest section, as well as in a line up from the central measurement point, & then fold up to form a double pocket.

Apply the same adhesive to the 1cm flaps on the additional piece, as well as in a line up from the central marked point. Align the bottom to the fold line above the double pocket & stick down firmly.

Add the individually wrapped tea bags & close up the wallet once more, decide on the position of your Velcro dot & attach. Create the embellishment by layering up the two circle die cuts with the cup die cut on top & attach firmly to the front flap of the wallet.
