

Spoon rest gift package with acetate sleeve

Spoon rest cradle piece

This fits within the box & is stuck to the inside lower edge & to the sides to cradle the spoon rest.

You will also need a matching piece of card measuring 12.8 x 11.3cm to inlay on the inside base of the box & needs to be inserted before adding the spoon rest cradle piece.

The acetate wrap measures 11.6 x 29.5cm & although I will give you the position of the score lines (13.5; 14.5; 27.5 & 29.5cm) I strongly suggest that you fit this by hand - gently pinching the acetate around the edges of the box & then scoring in those pinched lines, which will give you a much better fit.

Either cut a 3cm strip from a 30.5cm paper or join two pieces together to for the belly band, & this needs to be fitted in the same way as the acetate slip cover above.
